Susan Murphy

Morrison Real Estate - Amelia Island, Florida - Real Estate Agent

Introduction – Win

My name is Susan Murphy and I am a professional Realtor® with Nassau County Realty. I have lived and worked in this beautiful area for many years, and take great pride in our community.

Buying the Right Home

Buying the right home is one of the most important financial decisions that most people make in their life. Helping you succeed in finding the right home at the right price is my profession and my passion.

Location, Location, Location

Everyone knows that the same house or property in a different neighborhood or different "side of town" can have a strikingly different value. So in evaluating real estate, it is quite important that you be aware of local factors. This includes such things as neighborhood trends, area growth patterns, local ordinances and government issues, and the condition of competing properties.

Many Qualities

There are many qualities that characterize an outstanding real estate professional – honesty, integrity, commitment, knowledgeable, trustworthy, hard-working, effective marketer and negotiator. My clients have used all these to describe me.

You are Unique

No one wants to buy the proverbial two story house – one story before you buy it and another story after. That is why I highly recommend that home inspections be performed by experienced, licensed inspectors. Even well-meaning sellers may not be aware of hidden problems that could turn your dream home into a money pit. Peace of mind is well worth the price of a typical inspection.

All Real Estate is Local

It is a truism in real estate that all real estate is local. Local issues can be vitally important in determining the value of a piece of property, and whether it will fit your present and planned lifestyle.

His Holiness the Dalai Lama is an extraordinary example of a life dedicated to peace, communication, and unity. What he represents, and what he has accomplished, heals and transcends the current tensions between Tibet and China. **Why the Dalai Lama Matters** explores just why he has earned the world's love and respect, and how restoring Tibet's autonomy within China is not only possible, but highly reasonable, and absolutely necessary for all humans to have a peaceful future.
